YOUR RELIABLE PARTNER

ABOUT US

Welcome to Nineti, Saudi Arabia's premier company specializing in comprehensive risk management services. With global expertise and an unwavering commitment to excellence, we bring a wealth of experience to the table, addressing challenges related to health and safety, industrial and critical infrastructure, as well as management systems.

WE STAND OUT

Mission

At Nineti, our mission is to empower organizations to navigate complex risk landscapes successfully. We strive to be the trusted partner in providing innovative solutions that not only reduce risks but also enhance safety, enabling businesses to thrive in a competitive environment.

Vision

Our vision is to be the forefront leader in risk management services, setting new standards for excellence in the industry. We aspire to foster a culture of continuous improvement, where our expertise and forward-thinking approach contribute to the success and sustainability of our clients.

Value

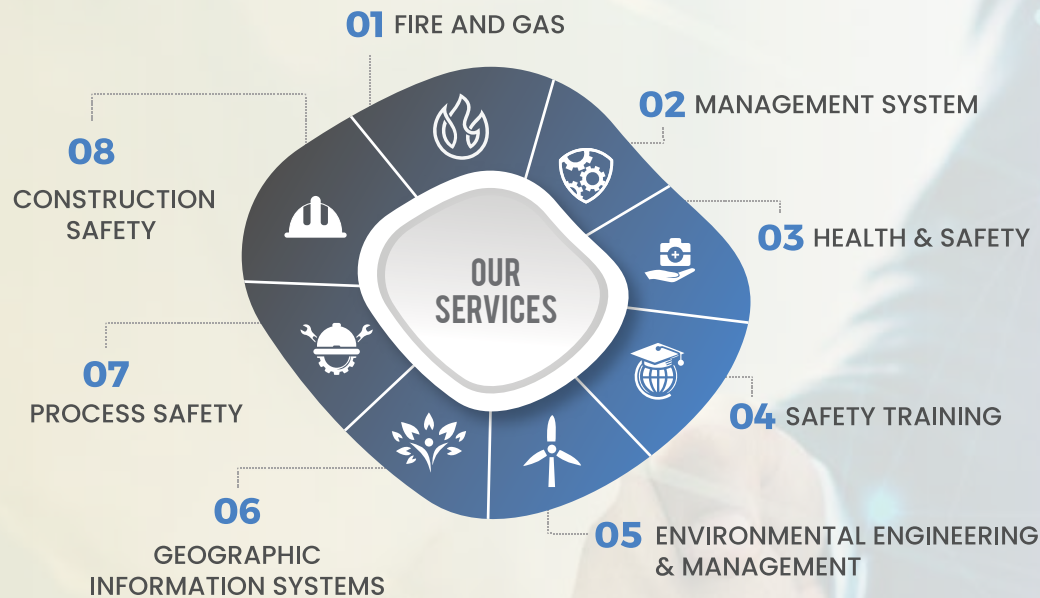

- Integrity
- Customer Focus
- Excellence
- Innovation

OUR SERVICES

WE SERVE THROUGH THE KINGDOM

SAFETY

& PROCESS SAFETY

SAFETY & RISK

- Safety & Risk.
- Quantitative Risk Analysis.
- Fire Risk Analysis.
- Explosion Risk Analysis.
- Building Risk Assessment.
- Emergency Evacuation Rescue Analysis.
- Emergency Systems Survivability Analysis.
- Flare Radiation, Dispersion and Noise.
- Ship Collision Study.
- Dropped Object Study.
- Matrix of Permitted Operations (MOPO).
- Fire and Gas Mapping.
- Design/Operations Performance Standard.
- HSE CASE/Safety Case/HSEIA.
- Risk Based Inspection.
- Written Scheme of Examination.
- Pre-startup Safety Review.
- Acoustic-Induced Vibration Analysis.
- Functional Safety Plan.

SAFETY WORKSHOPS

- HAZOP
- HAZID
- LOPA (SIL Determination)
- Bow-Tie
- ALARP
- Risk Reduction Workshop
- Layout Review Studies
- SIMOPS
- HAZAN

FIRE PROTECTION DESIGN

- Fire Water Network Analysis – Steady State
- Fire Water Network Analysis – Transient
- Deluge System Sizing and Design
- Sprinkler System Sizing and Design
- Fire Water Pump Sizing and Design

CFD MODELLING

- Exhaust Dispersion
- Thermal Plume
- Gas Dispersion
- Flare Deflagration/Dispersion
- Explosion Assessment

RELIABILITY STUDIES

- RAM Study
- Reliability Centered-Maintenance
- FMECA / FMEA

PROCESS ENGINEERING CONSULTING

New Plant Development Services

- Process Screening
- Feasibility Design
- Conceptual Design
- Technical Design Review
- Bid Evaluation
- FEED & Detailed Engineering Support
- Start-up and Commissioning Support

Operational Plant Services

- Performance Assessment
- Optimization
- Debottlenecking
- Troubleshooting
- Operational Support

The above services are applicable to a wide range of facilities including but not limited to:

- Offshore Platform
- FPSO
- Onshore gas processing plants
- Refineries
- Petrochemical Plants
- LNG Import/Export Terminals
- Compressor Stations
- Pipelines

NINETI
Your Reliable Partner

ADVANCED ENGINEERING ANALYSIS

- Flow Assurance
- Dynamic Simulation
- Pipeline Engineering Services
- Operator Training Simulator
- Linear Programming
- Heat Exchanger Design & Optimization
- Material Selection and Corrosion Management
- CAPEX & OPEX Estimation & Optimization

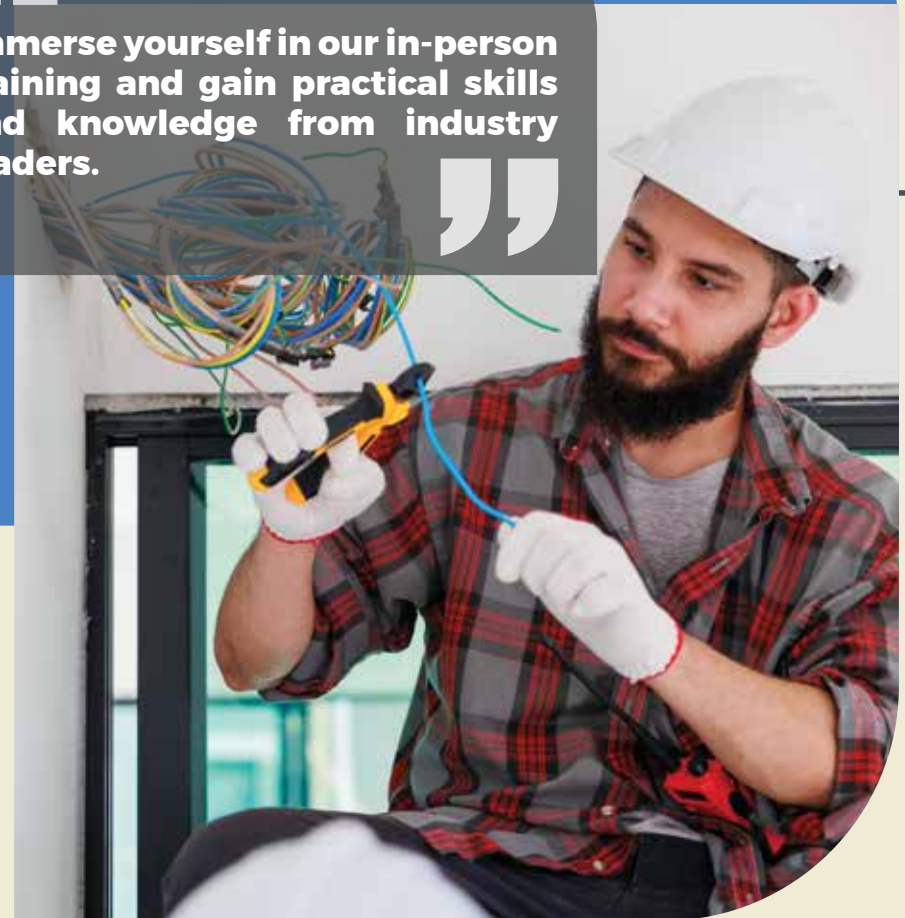

WE ARE
MODELING
THE
FUTURE

IN PERSON TRAINING

“

Immerse yourself in our in-person training and gain practical skills and knowledge from industry leaders.

”

- P&ID's and PFD's Development
- Fundamentals of Pump and Compressor System
- Process Safety Engineering – Relief & Blowdown System
- Process Utility System Design
- Relief, Flare & Vent System
- Separation Equipment— Selection & Sizing
- Flare Network Simulation by FLARENET
- Steady State Process Simulation by HYSYS

WE CAN PROVIDE TAILOR-MADE PACKAGES AND HANDS ON TRAINING, FOR THE CLIENTS NEED.

NINETI
Your Reliable Partner

ONLINE TRAINING

INTRODUCTION TO PROCESS SAFETY

Estimated Time: 6 to 8 hours

HAZOP PARTICIPANTS

Estimated Time: 6 to 8 hours

INTRODUCTION TO BOWTIES

Estimated Time: 4 to 6 hours

CRITICAL RISK MANAGEMENT FOR DIRECTORS AND EXECUTIVES

Estimated Time: 2 hours

PROCESS SAFETY ESSENTIALS PACK

Estimated Time: 16 to 22 hours

Our online training provides flexible, accessible learning opportunities, empowering you to gain valuable skills at your own pace."

GEOGRAPHIC INFORMATION SYSTEM

- Geospatial Data Acquisition and Creation
- Creation and Management of Geodatabases
- Spatial Analysis and Modeling
- Remote Sensing
- Geostatistical Analysis
- Natural Resources Inventory Management
- Mapping, Digitization and Georeferencing
- Environmental Planning and Change Detection
- GIS Based Multi Criteria Decision Analysis

“

"Our GIS services encompass everything from data collection and geodatabase management to complex spatial analysis and modeling, enabling informed decision-making across various fields."

”

OUR ENVIRONMENTAL CONSULTING SERVICES

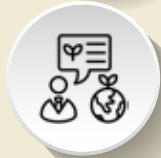

Our company covers the following sectors:

01

MANAGEMENT CONSULTING

02

ENVIRONMENTAL ENGINEERING

03

LABORATORIES

04

ENVIRONMENTAL SANITATION

05

ENVIRONMENTAL CONSULTING

“

WE NAVIGATE THE COMPLEXITIES OF SUSTAINABILITY TO PROVIDE INNOVATIVE SOLUTIONS THAT PROTECT THE ENVIRONMENT AND DRIVE YOUR BUSINESS TOWARD A GREENER FUTURE.”

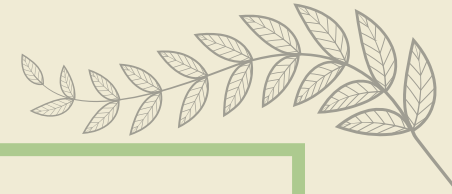

”

Nineti provides a wide range of services in various fields, thanks to the significant diversity of specializations within the company, aiming to meet the diverse needs of our clients.

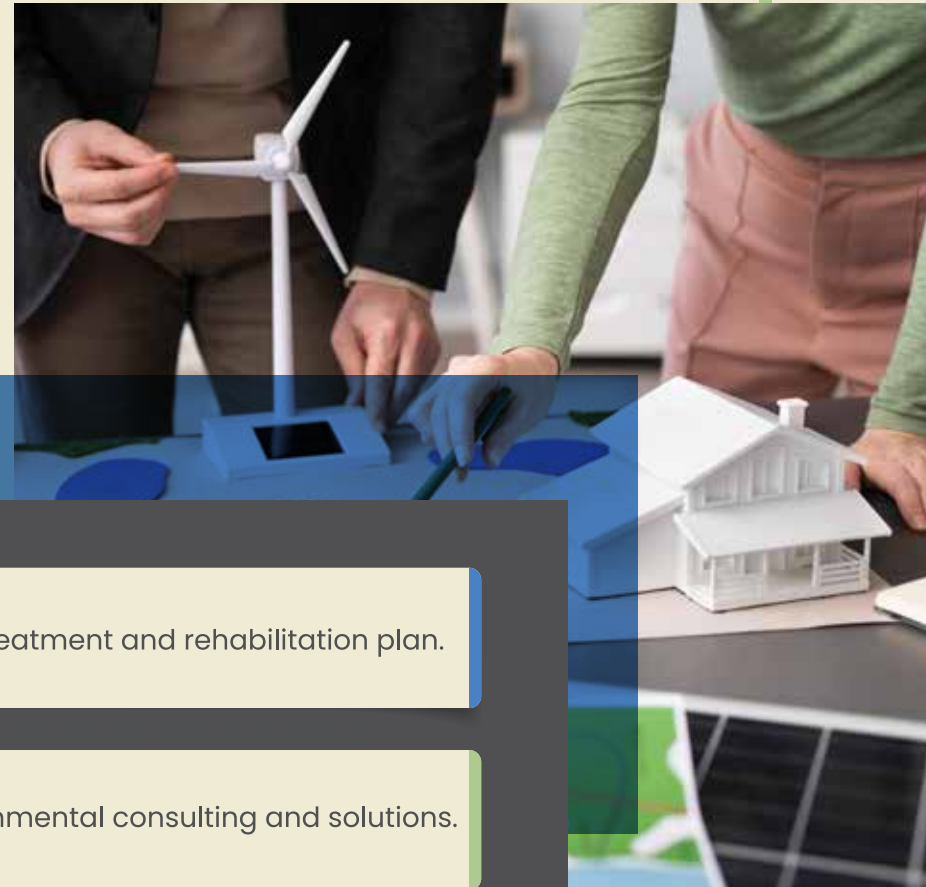

NINETI
Your Reliable Partner

ENVIRONMENTAL CONSULTING

As an environmental Consulting Company, we provides a group of important services, which are:

01

Environmental management plans.

02

Preparing environmental records.

03

Environmental Monitoring Reports.

04

Environmental treatment and rehabilitation plan.

05

Providing environmental consulting and solutions.

06

Issuing and renewing environmental licenses.

NINETI
Your Reliable Partner

MANAGEMENT CONSULTING

Due to Nineti commitment to adhering to the highest standards of quality in all its operations, our company employed numerous specialized experts accredited by international bodies in various fields of management consulting.

These experts provide the following services:

Preparation and implementation of ISO international quality standards for integrated management systems.

Preparation and execution of training programs for quality auditors across different sectors.

Training, development, and establishment of policies and systems according to ISO international quality standards.

Supervision, auditing, risk management, and governance.

Qualification for obtaining the Saudi Quality Mark.

NINETI
Your Reliable Partner

“

**THE ENVIRONMENT IS
NO ONE'S PROPERTY TO
DESTROY; IT'S EVERY-
ONE'S RESPONSIBILITY
TO PROTECT**

”

ENVIRONMENTAL ENGINEERING

Environmental and Social Impact Assessment (ESIA)

In compliance with the Equator Principles (EP), IFC, World Bank, RCJY, Aramco, and GAMEP guidelines.

Environmental and Social Management Planning (ESMP)

For simple and complex industrial operations (OEMP) and construction projects (CEMP).

Environmental Baseline Studies (EBS)

Covering Atmospheric Environment, Soils, Geology, Physiography, Ecology, Water Resources, Environmentally Sensitive Areas, Land Use, Socio-Economic Conditions, and Seismic Activities.

Environmental Risk Assessment (ERA)

To identify environmental risks and control measures in line with EMS and ISO requirements.

Environmental Emergency Response Planning (ERRP)

For construction projects and for operational facilities.

Analytical and Technical Services

- Sampling and Analysis
- Stack Testing
- Predictive emission monitoring
- Ambient air quality monitoring
- Waste characterization and analysis
- Water and Wastewater Testing and Noise Monitoring

Pollution Prevention and Waste Minimization

Promotion of pollution prevention and waste minimization technologies to ensure environmental compliance and economic returns as an alternative to end-of-the-pipe treatment.

NINETI
Your Reliable Partner

LABORATORIES

NINETI Your Reliable Partner

Nineti boasts a team of highly qualified and experienced professionals specializing in laboratory management, operations, and development. Additionally, Nineti maintains strong relationships with various suppliers of chemical materials, laboratory equipment, and leading companies in the biotechnology, genetic extraction, and related sectors and offer the following services:

- 1 Operations, and development of food laboratories.
- 2 Operation and development of biotechnology laboratories.
- 3 Implement environmental measurements of noise and air quality inside and outside the work environment.
- 4 Operation and development of chemistry and microbiology laboratories.
- 5 Operation and development of insect laboratories.
- 6 Air quality monitoring station (mobile laboratory).

ENVIRONMENTAL SANITATION

Nineti employs a team of highly qualified consultants and engineers specializing in environmental sanitation who offer the following services:

- 01 Establishment and operation of control and monitoring centers to manage and monitor environmental sanitation programs and projects.
- 02 Developing plans and programs to ensure the quality implementation of environmental sanitation projects.
- 03 Entomological surveillance and investigation of various public health pests.
- 04 Implementing integrated pest management projects for public health pests.

“

BY PRIORITIZING ENVIRONMENTAL SANITATION, WE HELP SAFEGUARD PUBLIC HEALTH AND PROTECT YOUR COMMUNITY FROM HARMFUL HAZARDS, ENSURING A CLEANER, SAFER, AND HEALTHIER ENVIRONMENT FOR EVERYONE.

COMPREHENSIVE FIRE & GAS PROTECTION SOLUTIONS

Design, supply, installation, testing, and commissioning of all known fire protection systems.

Automatic Fire Suppression Systems:

- Gas-based systems: Novic 1230, FM-200, High and Low Pressure Carbon Dioxide.
- Water-based systems: Water Sprinkler, Fire Hydrant System, Foam System, Fire Cabinet.
- Fire Detection and Alarm Systems:
 - Conventional and addressable systems.
- Range of Products:
 - Fire Pumps Set, Control Panels, Foam Equipment, Monitors & Nozzles, Fire Hydrants, Hose Reels Stations, Fire Extinguishers, Hoses, Fighting Gears (Suits, Boots, Helmets, Gloves), Smoke and Heat Detectors, Manual Call Points with Break Glass, Sounder Strobe.

We provide comprehensive Fire & Gas Protection Solutions, offering end-to-end services from design and supply to installation, testing, and commissioning of cutting-edge fire protection systems, ensuring your assets and people are safeguarded with the most reliable and effective solutions, whether through advanced gas-based suppression, water-based systems, or state-of-the-art fire detection and alarm technologies.

NINETI
Your Reliable Partner

“

Fire protection is not just safety—it's a critical investment in life, property, and peace of mind.

STATE OF ART FIRE AND GAS SYSTEMS

Nineti stand outs with fire and gas systems and providing the following:

Fire suppression, Alarm & Detection Systems

Tailored extinguishing method for fires in both residential and commercial settings.

Foam Equipment Devices

A broad portfolio of water and foam fire fighting products with various approvals (UL, FM, CE).

FM 200 System

Advanced Fire Suppression and Safety.

FirePro Aerosol Fire Suppression System

Condensed aerosol technology that extinguishes fire by inhibiting the chemical reaction on a molecular level.

Fire Fighting Pumps

Integral for establishments, built to international standards (UL, FM certified).

Fire Protection Valves & Sprinklers

A detailed presentation of fire protection valves, sprinklers, fittings, and support systems.

COMMITMENT TO INTERNATIONAL STANDARDS, CIVIL DEFENSE, AND LOCAL REGULATIONS

FIRE & GAS

OUR MAIN CLIENTS

WHY NINETI ?

1

Industry Expertise: Nineti possesses extensive knowledge and experience in environmental engineering, process safety, and risk management.

2

Regulatory Compliance: The company is certified by National Center for Environmental Compliance (NCEC) and High Commission for Industrial (HCIS) and adheres to stringent national regulations, and approved ensuring high standards of quality and safety

3

Tailored Solutions: Nineti offers customized solutions to meet specific client needs, whether it's environmental services or fire and gas prevention.

4

Safety and Sustainability: The company prioritizes safety and sustainability, implementing advanced practices to minimize risks and environmental impact.

5

Innovative Technology: Nineti leverages cutting-edge technology to improve efficiency and provide real-time data for better decision-making.

“

Nineti's commitment to safety, sustainability, and innovative technology, coupled with our deep industry expertise and regulatory compliance, ensures optimal solutions for your business, driving success and peace of mind.
